

Digital Talent Scholarship 2022

Convolution Neural Network Pt 2

Lead a sprint through the Associate Machine Learning
Track

Agenda

- Mengenal CNN lebih dalam
- Transfer Learning
- Coding Sessions

Are your students ML-ready?

Cara Filtering

1. Sejajarkan Fitur dan patch dari gambar
2. Tambah tiap piksel gambar dengan koresponding fitur piksel
3. Totalkan
4. Bagikan dengan total angka dari piksel di dalam fitur

What is Transfer Learning?

Sebuah pemanfaatan pengetahuan yang diperoleh saat memecahkan sebuah masalah dan kemudian diterapkan ke masalah yang berbeda namun masih memiliki keterkaitan.
